Question: Section M: DET 12-M002, Evaluation Factors (Jul 2005): States "To be added later". Is this correct or an error? If correct, when will these be added?

Response: This statement is found at the very end of Section M and is a typographical error. The words "**DET 12-M002,, Evaluation Factors (Jul 2005): States "To be added later"**" were included by mistake and will be removed via an Amendment to the Solicitation.
